Message from General Chairs

Dear Colleagues and Friends,

It is our great pleasure to welcome you to the 2nd IEEE Microwave World Leaders Conclave (IMWLC) 2026, to be held at the Hyatt Regency, Trivandrum, Kerala, India, on December 12–13, 2026. Organized by the IEEE Microwave Theory and Technology Society (MTT-S), with the support of the IEEE MTT-S Industry Business Council (IBC) and the IEEE Member and Geographic Activities (MGA) Committee, IMWLC 2026 will bring together global leaders from academia, industry, government, startups, and research organizations to discuss the future of microwave, RF, mmWave, terahertz, space, defense, sensing, and next-generation communication technologies.

The inaugural edition of IMWLC, held in Bengaluru, India, in 2025, was a remarkable success, attracting over 300 participants from around the world. Featuring distinguished keynote speakers, industry leaders, government agencies, startup showcases, technology exhibitions, and student activities, IMWLC established itself as a unique platform for leadership dialogue, innovation, and collaboration within the global microwave community.

Building on this success, IMWLC 2026 will feature keynote talks by internationally renowned experts, leadership forums, industry sessions, startup and innovation showcases, exhibitions, networking events, and dedicated activities for students, Young Professionals (YP), and Women in Engineering (WiE). The conclave will provide a unique opportunity to exchange ideas, foster collaborations, and explore emerging technologies that are shaping the future of wireless and microwave engineering.

Key Highlights of IMWLC 2026

- Keynote talks by internationally recognized leaders from academia, industry, government, and research laboratories.
- Leadership forums discussing future technology roadmaps and global trends in microwave and wireless engineering.
- Industry sessions, startup showcases, and technology exhibitions featuring cutting-edge innovations.
- Technical discussions on RF, microwave, mmWave, terahertz, satellite communications, radar systems, sensing technologies, AI-enabled RF systems, and 6G communications.
- Student-focused activities including the 3MT Competition, networking opportunities, and interactions with global technology leaders.
- Dedicated Young Professionals (YP), Women in Engineering (WiE), and MGA activities.
- Opportunities for collaboration among academia, industry, startups, and government organizations worldwide.

Trivandrum, the capital city of Kerala, is renowned for its vibrant scientific ecosystem, rich cultural heritage, scenic beaches, and natural beauty. Home to premier institutions and major space research centers, the city provides an ideal setting for this global gathering of microwave and technology leaders. We eagerly look forward to welcoming you to Trivandrum, Kerala, for IEEE Microwave World Leaders Conclave (IMWLC) 2026. With participation from distinguished leaders, researchers, innovators, entrepreneurs, and students from across the globe, IMWLC 2026 promises to be an inspiring and memorable experience for the worldwide microwave community.
